**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1- 43, 45-46 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The primary reasons for the indication of the allowability of claims 1- 43, 45-46 are the inclusion therein, in combination as currently claimed, of the limitation of a first adjustable position hinge clip slidably attached to the base or cover for pivotably connecting the base to the cover, and allowing the cover to pivot open either vertically or horizontally (for claims 1-30), an adjustable position hinge clip slidably attached to the base or cover for pivotably connecting the base to the cover, and allowing the cover to pivot open either vertically or horizontally (for claims 31-42), the hinge clip comprising a first hook disposed at a top end of the base for attaching the top end of the hinge clip to the first or second mounting rail, and a second hook disposed at a bottom end of the hinge clip for attaching the bottom end of the hinge clip to the first or second hinge mounting (for claim 43), and a first, second, third and fourth corner rib, wherein the first and second corner ribs are respectively positioned on opposite ends of the top of the first aperture rib and the third and fourth corner ribs are respectively positioned on opposite ends of the bottom of the second aperture rib and further, wherein removal of the center rib, aperture ribs, insert ribs, side ribs and corner ribs creates a second rectangular opening (for claims 45-46).

The previously listed limitation is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Other prior art cited***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Quin, Ward et al, Rich, Torres, Ferris et al and Ferris et al disclose a box similar to applicant's claimed invention.
